6. REPORTING ANY WRONGDOING

- 6.1 Any employee, volunteer or contractor who detects or has reasonable grounds for suspecting wrongdoing is encouraged to raise any concerns with their immediate manager through normal reporting channels. The manager will report the allegation to the Line Manager or Management, who is responsible for ensuring the matter is properly dealt with. This may include appointing an independent investigator to inquire into the allegations. Alternatively, it may be appropriate to continue to be dealt with internally.
- 6.2 If the employee, volunteer or contractor does not believe reporting to their immediate manager through normal reporting channels is appropriate given the circumstances of the wrongdoing, the report may be made directly to the Line Manager or Management.
- 6.3 Where it is shown that a person purporting to be a whistle-blower has knowingly made a false report of wrongdoing, then that conduct itself will be considered a serious matter and that person may be subject to disciplinary action which may include dismissal, should they be matters which the person reporting the issue knows, or ought to know, have no substance.

7. CONFIDENTIALITY OF WHISTLEBLOWERS IDENTITY AND WHISTLEBLOWING REPORTS

- 7.1 If a person makes a report of alleged or suspected wrongdoing under this policy, IBS will endeavor to protect that person's identity from disclosure. This may not occur if confidentiality is not a practical option.
- 7.2 Generally, IBS will not disclose the person's identity unless:
- IBS employee/contractor making the report consents to the disclosure;
 - the disclosure is required or authorized by the local law and/or;
 - the disclosure is necessary to further the investigation.
- 7.3 Generally, reports made under this policy will be treated confidentially. However, when a report is investigated it may be necessary to reveal its substance to people such as other personnel of IBS, external persons involved in the investigation process and, in appropriate circumstances, law enforcement agencies. At some point in time, it may also be necessary to disclose the fact and the substance of a report to the person who is the subject of the report. While confidentiality is maintained, in some circumstances, the source of the reported issue may be obvious to a person who is the subject of a report.
